BOTH IN LOUISVILLE.

Gov. Beckham And Mr. Taylor
Spent Sunday In Louisville.

Republicans Keep Their Purposes
Dark, But Evidently Intent To
Ignore the Court of Appeals.

Louisville, March 18.—The two Governors of Kentucky were entertained in this city today. They spent the day quietly, though both received numerous calls from their political and personal friends.

Mr. Taylor and his assistants among the Republican party leaders are very close-mouthed as to the nature of the mission on which Surveyor of the Port C. M. Barnett and Collector of Internal Revenue Sapp left for Washington last night after their conference with Taylor, but there is little doubt it has to do with the attitude of the national administration toward the Republican State offices.

The latter don't conceal their purpose to hold on to their positions until the United States Supreme Court has passed upon the question of their right to hold them. They do not intend to surrender the State buildings and records after a decision by the State Court of Appeals if that court should decide against them.

There has been some talk that the Democratic officers may try to exercise their functions in earnest in case they are upheld by the Court of Appeals, which they regard as the court of last resort in their cases, and it is believed the Republicans wish to know the feeling of the national leaders of their policy.

Governorship Case.
The governorship case is still before the Circuit Court of this county. The Democratic attorneys will file probably to-morrow, their reply to the amended answer of the Republicans, which was submitted last week. As no new points have been raised Judge Field is expected to make a ruling in line with his former decision that the action of the Legislature on the gubernatorial contest was final, and that his court has no power to review it. Then the case will be taken to the Court of Appeals, the proceedings before which are expected to occupy about two weeks. In case of an adverse decision the Republicans will try to get a hearing before the United States Supreme Court.

In advance of a decision by the Court of Appeals the Democratic leaders don't discuss their plans to secure possession of the offices in case the action of the Legislature is sustained, but there is every probability that such a decision will bring the rival administrations face to face with a new complication. Taylor and Beckner will return to Frankfort to-morrow.

FORMER CITIZEN

Of This City Dies In The Lone Star
State.

Mrs. Mattie Howe, formerly of this city, died at her home in Waco, Texas on the 10th inst. Deceased was a daughter of the late Daniel Hays and a sister of Mr. Jas. D. Hays, formerly of this city, but now of California. She married Dr. Sam'l D. Howe, who was an officer in the Confederate army, shortly after the war and moved to the Lone Star State, where she resided until her death.

Fine Hogs.
Mr. Jno. R. Green received last week from Mr. J. B. Young, the well-known breeder of New Castle, Ky., a pair of hogs celebrated "Thin Rind hogs," registered stock. This breed of swine is becoming quite popular in this county and several of the best farmers are now raising Thin Rinds.

Edward Thompson, of Eddyville, was adjudged a lunatic Friday and brought to the asylum here the same day.

ELIMINATE SILVER.

Such Scheme Said to be on Foot
Among Eastern Democrats.

St. Louis, March 16.—Ex-Gov. Wm. J. Stone, Democratic National Committeeman from Missouri, said to-day he believed there was some truth in the statement that there is a movement among Eastern Democrats to elect Tom L. Johnson, of Ohio, Chairman of the National Committee and eliminate silver from the platform. Gov. Stone said:

"From information that came to me at Washington and since I gather that the end which the Palmer and Buckner Democrats are trying to attain is the capture of the organization of the party. Their scheme seems to be to get into the convention as delegates, and with as little noise as possible, but by means of adroit manipulation control as many delegates as possible with the ultimate object of controlling the convention and capturing the national committee. They will be for Bryan, but they want the organization."

"Speaking for myself, while I am very glad to see the Palmer and Buckner Democrats, who deserted the party in 1896, come back to it, I don't believe in offering a premium for their return. If they come back they should come with no hope of reward, but as plain Democrats."

SKELETONS UNEARTHED.

Believed To Be Those Of Murdered
Tennessee Traders.

Eight skeletons were unearthed by L. & N. laborers employed in building a switch near Guthrie last Thursday. Medical men summoned were of the opinion that the skeletons were the remains of men who had been buried probably 30 or 40 years. Four of the skulls were crushed in as though having been dealt blows with some heavy instrument. The other four had holes in different portions of the skulls, as though a large caliber bullet had been fired at close range. Many years ago, near where the skeletons were found, stood an inn, and traders from Nashville and other Southern points would spend a night there, when on their way to St. Louis to dispose of stock. In 1852 a company of traders, eight in number, left Nashville for St. Louis with a large drove of cattle. They disposed of their stock, and a few days later started upon their return trip home. Nothing more was ever heard of them, although they were traced to that section, and the skeletons discovered Thursday are believed to be those of the long lost men.

A PATRIOT'S DAUGHTER.

One Of The First Contributors To
The Goebel Monument Fund.

Mrs. H. A. Summers, mother of Mrs. J. O. Cooper, of this city, who is still in good health at the great age of more than 90 years, was a great admirer of the late Gov. Gobell and his death was almost a personal bereavement to her, although she never saw him and admired him only for his public services in behalf of the people.

She was among the first contributors to the Goebel Monument Fund, and sent her contribution in direct, withholding her name but signing herself "daughter of a soldier killed at the battle of New Orleans." Her letter aroused such interest that Gov. McCrory was anxious to find out who the writer was and his inquiries brought out the desired information. Mrs. Summers was a Miss Anthony, and as she stated in her letter her father was one of the seven Americans killed at New Orleans 85 years ago. It is the patriotic devotion of such mothers of the "great common people," that will keep bright the memory of the greatest Governor Kentucky ever had.

Caused By Pneumonia.

An 18-month-old daughter of Mr. Henry Teazley, of the Brainbridge neighborhood, died Saturday night. The remains were interred yesterday.

DEATH OF MRS. ATKINSON.

Christian Lady Summoned To
The Great Beyond.

M. A. MASON.

Death of One of The County's
Best Citizens.

Lafayette, Ky., March 16.—Died yesterday morning about 11 o'clock, at the home of her son-in-law, Mr. J. L. Thacker, Mrs. Gabe Atkinson, aged 68 years. She had been ill about two months with grippe. Mrs. Atkinson was a devoted Christian lady and had been a member of the Methodist church, South, since girlhood. She was fully prepared for the summons and was waiting and anxious to go. She leaves three daughters and one son, all grown, besides a large circle of devoted friends to mourn her departure. The interment took place this afternoon in the family burying ground.

MRS. LONEY DEAD.

Lady Well Known Here Passes
Away at Asheville.

Mr. Meriwether Anderson Mason died at his home at The Square, in this county, Friday morning, in the 48th year of his age. He was born in Christian county March 1, 1853, being the youngest son of the late Mr. Wm. B. Mason. The Masons are an old Virginia family. M. A. Mason was the last of his family. His two brothers have been dead for some years.

Mr. Mason had been in health for several years and a few weeks ago was stricken with paralysis.

From the first his life was despaired of. Never robust, his physical condition was not such as to withstand the attack. He grew gradually worse until death ensued.

In his death the county lost one of its very best and foremost citizens. He was one of the largest land owners and most successful farmers in the county. His farm at The Square, a body of land of 1,000 acres, is regarded as the finest farm in the county. This farm and other property interests go to make up a very valuable estate he will leave to his family.

Mr. Mason was married Feb. 28, 1875, to Miss Lula Wills, who survives him with five children. His oldest daughter, Miss Sarah, was married about a year ago to Mr. Claude Berry, of Washington. The oldest son, M. A. Mason, Jr., is about grown and another daughter, Miss Lizzie, will soon be out of school. The other children are small. Mr. Mason was a member of Locust Grove Baptist church and was a consistent Christian and useful member.

His funeral services were held at the Baptist church in this city at 2 o'clock Sunday afternoon. His pastor Rev. W. L. Payton officiated, assisted by Rev. C. H. Nash. The interment followed at Hopewell Cemetery.

BOERS RETREATING.

The Relief of Mafeking The Next
Thing In Order.

London, March 19.—The mounted force marching from Kimberley to the relief of Mafeking has reached Warrenton. The Boers are retreating ahead of the British. Lord Roberts, telegraphing from Bloemfontein, reports the further surrender of burghers. He has heard from Mafeking as late as March 6. Regular mail service between Bloemfontein and Cape Town will be restored to-day.

County Court Orders.

Parker Clardy has been appointed overseer of the Bell and Howell road from the Palmyra road to the Bell and Longview road.

HAD NATURE WARNED YOU?

"...and in the early garb of Nature's dress, to you, as to me, it was a warning to you, as to me, to take care of your health, and to do what you could to help it along. And so, as our advice goes, you no longer have to be troubled by German Liver Powder. Take Hood's Pine Balsam for six days, and you will be well again. And when your system was in you were in trouble."

For those who are the favorite targets for colds, pneumonia, &c., this article.

If troubled with rheumatism, try Dr. Mendenhall's Pine Balsam a trial. It will not cost you a cent if it does not aid. One application will reduce pain. It also cures sprains and bruises in one-third the time required by any other treatment. Cuts, burns, fractures, etc., are speedily healed. Chest, glandular and other swellings are quickly cured by applying it. Every bottle warranted. Price, 25 and 90cts. Sold by R. C. Hardwick.

The president of Switzerland only gets \$2,700 a year, and the law forbids him to succeed himself.

Chronic Diseases Cured.

My mother suffered with chronic diarrhoea for several months. She was attended by two physicians who at last prescribed a diet of gruel. She prepared over 25 cent loaves of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and these loaves gave her permanent relief. I take pleasure in recommending it as the best on the market. How to Save Doctors Bills.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time, and whenever any of my family or myself begin to catch cold we begin to take the Cough remedy, and a result we are soon well again for a doctor and incur a large doctors bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth. D. S. Measler, General Merchant and Farmer, Mt. Vernon, Ky. For sale by R. C. Hardwick, Druggist.

To ally pains, subdue inflammation, heal foul sores and ulcers, the most satisfactory results are obtained by using BALLARD'S PINE OIL. Price, 25 and 50 cents. Sold by R. C. Hardwick.

ART IN CIGAR LABELS.

It is Developed in Rapid Strides in Recent Years.

Even engravers of bonds and signs and the men who make the labels for cigar boxes command the fancy salaries of that class of mechanized work. One of the largest lithographers of this country, the variety of designs on cigar labels far exceeds that of any other branch of the art. There is even a school dedicated to cigar art, and the students are taught to draw and paint, and to make labels.

OFFICE 218 SOUTH MAIN STREET.

TUESDAY, MARCH 20, 1890.—

Taylor's charity fund is to be used to purchase a house for the usurper in Louisville.

A vigilance committee has been organized at Houghton, Mich., to rid the fashionable suburb town of Laratum of its negro residents.

Gov. Beckham has appointed Jos. D. Felix, of Augusta, and Maj. Thos. F. Lane, of Washington, a son-in-law of Senator Blackburn, to be colonels on his staff.

David B. Hill is negotiating for the purchase of the Albany Argus, Daniel Manning's old paper and more recently owned by the estate of the late Roswell P. Flower.

Georgia showed up Sunday with two lynchings, one at Marietta and the other at Columbus. Some old story in both cases—negroes insulting white girls.

Beckham and Taylor both spent Sunday in Louisville, one stopping at the Willard and the other at the Galt. One traveled on the L. & N. and the other on the C. O. train.

Finey is still in Michigan and John Powers was last seen in Virginia. While the detectives are after these, suppose we try a new batch of warrants.

The Owensboro Vindicator says Dr. S. C. Swallow will be a prohibition candidate for President. The Doctor has the wrong name to inspire confidence in the prohibitionists.

Maud S., the famous trotting mare, whose record of 2:08½ was long unbroken, died last week aged 26 years. The late Robt. Bonner owned her and kept her for the glory of her past.

Taylor is generous, to say the least. A man who will gratuitously present with every pardon a set of false whiskers and a military uniform, cannot with impunity be called selfish.—Uptown Town Tele., gram.

Gen. Joe W. Wheeler is said to be in danger of losing the seat in Congress he has been trying to hold while in the army. Speaker Henderson has appointed other men to take his committee assignments and does not believe he is entitled to serve.

Taylor is said to have prepared another appeal to McKinley asking for federal interference. The Democrats in the country at large could ask nothing better than to have McKinley undertake to back Taylor up in the course he has followed during the last two months.

The Louisville Commercial says it has positive knowledge of the formation by the "Goebelites" of a secret political society. This order known as the R. A. R. was organized at Frankfort last month and offered much amusement to them members. While somewhat political in its nature, it was entirely harmless and free from sanguinary purposes. Royal Arch Ruler Harry Tandy should initiate the Commercial correspondent, to relieve his apprehensions and keep him from tearing his clothes.

Notice of Obituaries For Cather That Contains Mercury

As mercury will surely destroy the bones and render dental operations dangerous when entering through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, made of gold and silver, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheung & Co. Their specials free. Sold by Druggists, 7c. NOVELTIES IN WRAPS

Some of the Novelty and Extravagant Creations New York Society Women Are Wearing.

SOCIETY is rushing back to town these days to be present at the opening of the season. The season has been unusually stormy, and made this season to force the opening of the social season among the exclusive set at an earlier date than usual. New York society is made up of a large number who are millionaires on a small scale and a small number who are millionaires on a large scale.

that is absolutely new, as nothing like it has ever been seen before. It is in the fashion last year, and self is the fashion of "festival," novelties either in shape, decoration or design, and no new materials have been evolved.

But we are face to face with a period of magnificence that is probably unique in the history of fashion. The "festival" self is the fashion of "festival," novelties either in shape, decoration or design, and no new materials have been evolved.

An elaborate reception, or party, cape is made of cream satin with a handsome velvet collar, and a wide lace yoke and lace flaring collar, fastened on the deepest brocade back and front. At each side of this cape are four deep flounces of cream lace, the lower flounce extending around the bottom. A field of lace is drawn tightly across the lower part of the yoke, and extends in graceful curves down the front. This cape is lined with a pink flowered brocade and a

cape that is destined to be worn at one of the first of the season's receptions is made of black velvet and fits the figure closely, with a high medallion collar. It is trimmed with a deep fringe of white lace, with a wide border on the collar, down the front and edging the bottom of the wrap. A alken cord applique heads the fringe, and finishes the back of the wrap.

A pretty opera cape that illustrates the use of the different materials, made of emerald green and violet mirror velvet. This cape is made with a long portion of the violet mirror velvet, and edged with a narrow border of the emerald vine. A small shoulder cape is worn over this of the emerald, and a

smaller frill are constantly urging a longer winter season in the city while the more exclusive and wealthy are continually working for a shortening of the already short season.

In this tight, the weather classes have been invited to the city and simply stay away from the city until after the holidays, and allow the small fry to run things to suit themselves if they can. But what is New York society without the Vanderbilts, the Sloans, the Webbs, the Twombleys, the Burrites, and all the other well known names? New York does act with a rod of iron, and it is not until they return that there is anything like a real opening of the social season.

This year like other recent years, this class have spent their holidays at their country houses. For this reason Lady G. has had to make her society society seekers. There they played golf, indulged in sleigh rides, danced and in other ways enjoyed themselves on Christmas day, while their less fortunate neighbors, whose millions are not quite so far to permit them to indulge in the luxury of a country house, with its retinue of expensive servants and

servants are constantly urging a longer winter season in the city while the more exclusive and wealthy are continually working for a shortening of the already short season.

Another pretty opera cape is of white broadcloth embroidered with a large scroll design in gold beads on the high medallion collar, and a broad border.

A wide according to the drawing of this masterpiece de soie to finish all around, and falling in deep cascades in front. This is lined with white satin.

Still another opera cape is of dove's wing gray broadcloth embroidered in white, with a wide border of white broadcloth in V shape, and on each side of the front. It has a border of white, with a deep border of mouseline de soie to finish, and a long scarf of the mouseline de soie at the throat fastened with a gold buckle.

With these capes are most prettily lined there is a fur scarf of white crepon lined around the edge with wavy's down, and lined with pink silk.

SARAH DAVIDSON

A Competent Witness.

United States District Judge Williams, now holding court in Topeka, tells a funny story. Years ago he was a district judge in Arkansas. At a certain term of court a murder trial came before him. The defense witness for the prosecution was a colored boy only ten years old. The law required for the defense set out to show that the boy was too young to understand the nature of an oath, and therefore was not competent as a witness.

"Boy," said one of them, severely, "do you know who would happen if you swore to tell the truth?"

"Yes, sir. Mammy would lick me."

"Would anything else happen?"

"Deed boy would, cause devil would git me."

At this point Judge Williams leaned over his desk and said with pretended sternness, "Don't you know, boy, that I would get you too?"

"Yes, sir. Dint what I just said?"

should an Old Man Marry.

in it composed of four vines and nightmares if you please—the Hungarian novelist, Maura Jokai, wonders the question "Is it advisable for an old man to marry?"

The answer is no, in all the vine. All result unhappy. An old man who contemplated marriage should take Pouch's advice and don't.

Joe himself is well advanced in years, but he doesn't admit that he is an old man. A man advanced in years is not an old man," he says. Therefore he was not inconsistent when he took a young wife not long ago. A man must be old at heart to be really old.

His is lover's logic, especially the logic of an old lover. Francis Bacon was a wise philosopher. Answering the question "When should a man marry?" he said, "A young man not yet an old man, not at all!"—Post Dispatch.

There are sixteen portraits of the fair and patriotic daughters of the South in the April number of the Delinicator. The article they illustrate deals with "The Patriotic Work of Southern Women." It is a powerful testimony to the ability of southern women for public organized work. Waldon Farrecht is the author and he touches his subject most sympathetically. The Delinicator can be procured from any newsdealer. This is the magazine that for twenty-seven years has been full of suggestions for women regarding the varied affairs of home management.

DR. GOLDSTEIN,

After Three Years Absence.
Returns To Our City,
For a Few Days.

It is my specialty to fit glasses in such a manner that they relieve the eye strain perfectly, fitting the eye with spectacles that you can see with ease and comfort, thus preserving the eye. In examining the eye only the latest and most improved methods are used.

Physicians especially are invited to call and investigate my methods of correcting errors of refraction. Many cases of headache, neuralgia, nervousness, irritability, insomnia, vertigo, nervous prostration and the seeming stupidity of children are often due to defective vision caused by abnormal curvature of the cornea or crystalline lens, or to an irregularity of the refracting media of the eye, and are relieved at once upon the application of the proper glasses. Ninety per cent of the people over 40 years of age need glasses, and fifty per cent of the ninety need them for distance.

Glasses are not always given to improve eyesight, but to relieve undue strain; to short to assist nature. Thousands of eyes are ruined yearly. Seven persons out of ten have neither eyes with nor can they see. Imagine how necessary the testing of each separately. Special attention is given to any in equality that may exist between the refraction of the eye.

Optical science has made rapid advances within the last few years; the correctadaptation of spectacles has been determined by the optician who thoroughly understands his business realizes fully that in adjusting glasses for his patients he is treating with a most delicate and precious organ, where the slightest error may result seriously, while if in doing his work well, he not only gives comfort and ease to his patient, but in most cases improves the sight.

Special care should be taken in selecting the first pair of spectacles, nor should it be attempted without the aid of a responsible optician. It is most important that the lenses should be accurately centered and of the best quality. The frame should make that the wearer looks directly through the center. Glasses nicely fitted to the face becomes an ornament as well as a necessity.

Case Near Guthrie.

Guthrie, Ky., March 12.—There is a case of smallpox about two miles from this place, on the farm of Will Ware. The patient is a negro man working on the farm of Mr. Ware.

The Kentucky Washingtons.

Kentucky has within her borders the closest descendants of George Washington, in the person of Col. George Washington, an attorney of Newport, Ky., and his sons and daughters. For the purpose of accuracy, Col. Washington prepared a statement of his relationship to Gen. Washington.

"I am descended from Col. Samuel Washington, the oldest full brother of Gen. Washington, who also had several half-brothers.

"Col. Samuel Washington was born at 'Wakefield,' Westmoreland county, Va., and died in the fall of 1781 at 'Harewood,' his family seat. His second wife was Mildred, daughter of Col. John Thornton, of Spotsylvania county Virginia. By her he had a son named Thornton, born in 1760. Thornton married his second wife, also a Washington, in 1786. He had joined the army when about sixteen years of age, and was Ensign under his uncle, Gen. George Washington.

Thornton Washington died in 1787, leaving one son, Samuel Washington, who also married a Washington. It was this Samuel Washington who, with a large family, removed to Kentucky in 1834. Two of these children survive, Mrs. Mrs. Kate Duke, who lives in Missouri, and Mrs. Maria Perry, of Newport. Mrs. Duke has a son and two daughters, Mrs. Perry four daughters. Capt. John Thornton Washington (son of the Samuel who removed to Kentucky) left two sons, Francis T. Washington, of Norfolk, Va., John Thornton Washington, St. Louis, Mo., and two daughters, Mrs. John B. Taylor and Miss Florence May Washington, of Newport. George Washington, son of Samuel Washington, had a wife named Martha, and left two children, Mrs. Alice Scott, of Knoxville, Tenn., and the present Capt. John Thornton Washington, son of the Samuel who removed to Kentucky, left two sons, Francis T. Washington, of Norfolk, Va., John Thornton Washington, St. Louis, Mo., and two daughters, Mrs. John B. Taylor and Miss Florence May Washington, of Newport. George Washington, son of Samuel Washington, bore an astonishing resemblance to the General, was born in Berkeley County, Virginia, February 14, 1787, and lived many years in Newport, Ky.

He often saw Gen. Washington and remembered him well. Mrs. Taylor, of Newport, the great-great niece of Gen. Washington, has in her possession Gen. Washington's silver shoe buckle set with brilliants; also other relics.

Magnetic Healing.

We practice this method of Magnetic Healing as does Prof. Weltmer of Nevada, Mo. We treat any and all diseases without the use of drug or medicine.

This method of treatment is not a fad or a freak, nor many ignorant persons suppose, but a science embracing the grandest philosophical principles of any age. There is scarcely a form of disease on earth that our practice has not include. Nervous Diseases, Headache, Sciatica, Jointitis, Hay Fever, Asthma, Epilepsy, Malaria, Rheumatism, Loss of Voice, Deafness, Constipation, Kidney and Bladder Troubles and Functional, and sexual Disorders. Cancer, Goitres, Consumption, Rheumatism, Scrofula, general debility, indigestion, etc. etc. in fact every known disease readily gives way to this marvelous treatment. Do not think your case is hopeless, but come at once and consult for consultation is free.

We have made you many marvels cures we have made in the short time we are here and while we come here to stay and desire your patronage. We also give absent treatment. Terms reasonable. Office and treating room 5 & 12 Yancey Hotel, Hopkinsville, Ky.
